DEMAND PUNISHMENT.

was demanded by the Socialist leader, William English Walling, in a telegram to President Wilson today.

"Such punishment is necessary," Walling said, "because of the dangerous effect of race riots in America on revolutionary Russia, South America and Japan."

Walling characterized the uprising as partly the result of German agents' efforts to stir up race war to keep American troops at home and partly the result of an attempt by the Southern states to keep the Negro under their thumb.

"Savages at East St. Louis deliberately prepared this riot for a whole month. Without military excuse," Walling wrote, "it was worse, therefore, than anything the Germans did in Belgium, and to be compared only to the Jewish massacres under the czar."

"The pretext of labor invasion is invalid. There is no oversupply of labor anywhere in the country today. The riot was caused by the efforts of the anti-Negro element of the South to check the exodus of colored labor, which promised to force the South to suspend the reign of terror which has prevailed for half a century and to give Negroes better pay and treat them like human beings."

"The international and military situation calls for immediate action. There must be swift and severe punishment for the mob. But this will not suffice; there should be an immediate presidential proclamation, in the present military exigency, that the full military power of the Nation will be used in defense of the lives and liberty of our colored fellow citizens."—Tuesday's K. C. Star.

THE DISGRACE OF EAST ST. LOUIS.

How easily we relapse into barbarism has been again demonstrated by the East St. Louis mob. Women and girls have joined men in the outrages until we may expect resolutions of protest to come from the Russian Cossacks, to whom we have so recently offered our sympathy and help.

Explanations, of course, are to be found in the recent influx of Southern Negroes to jobs in East St. Louis—a part of the movement from South to North that has been taking place all over the country under the influence of the scarcity of labor. But no explanation can absolve a community from the odium of wanton cruelty inflicted on innocent persons. East St. Louis has disgraced itself in the eyes of the Nation, and it has disgraced the Nation in the eyes of the world at a time when it is especially important that the United States stand squarely for human rights at home as well as abroad.—Tuesday's Star.

MAJOR N. CLARK SMITH SCORES BIG SONG HIT.

Mr. Roland W. Hayes writes: "Well, the two songs, 'In the Heart' and 'Good Night,' are jewels. I have sung them on two occasions since my return home and the wildest enthusiasm has been made manifest."

"I sing Sunday mornings for a lecturer in one of the fashionable halls here in Boston (white), so last Sunday I closed the service by singing 'In the Heart,' and everybody thought it was simply exquisite. A singer who was present came to me and asked where it could be purchased. I showed her the copy which was presented to me and told her it was yet in manuscript and that I was honored with the dedication of them."

"I think that there will be many, many calls for them as they are so very simply, charmingly beautiful. The 'In the Heart' has simply captivated me, and everyone who has heard it, and I go about singing it in spite of myself. I shall sing them on all of my concert programs."

"Most cordially yours."

"ROWLAND W. HAYES."

Vaughan's Values

Perhaps many readers of The Sun would like to know who are taking advantage of these values I offer weekly.

The biggest men in town, they are the ones. Not necessary the man who makes the most money, nor the man largest in size, but every man, rich or poor, who feels that love of wife and family is greater than love of money is a big man. When he reaches the point of buying a home for his family, where the wife can reign supreme, he becomes, indeed, a very big man.
